

ABOUT P.S./I.S. 121:

VISION STATEMENT

It is the vision of P.S./I.S. 121 Nelson A. Rockefeller Magnet School of Applied Life Sciences to sustain a learning environment that brings experiences with the living environment directly to students in an urban setting, resulting in increased student knowledge and skills that can be applied to improving their lives, their community, and their world. They will develop self-efficacy, a genuine kindness towards the environment and humanity, and become a community of lifelong learners. Our students will be productive leaders of society.

MISSION STATEMENT

It is the mission of P.S./I.S. 121 Nelson A Rockefeller Magnet School of Applied Life Sciences to create and sustain a learning environment centered on a Life Sciences curriculum. We will expose students to various living environments to provide regular hands-on and minds-on experiential learning. In this learning environment, students will regularly assess critical thinking processes by engaging in the scientific method to achieve high standards of academic excellence. Students will work collaboratively to solve problems and apply what they learn to improve their world.

TOGETHER WE MAKE A DIFFERENCE!
